

MEED

MEED: Nurturing Leaders of Excellence

A comprehensive approach to holistic education—mastering both Dunya and Akhirah through Enlightenment, Empowerment and Dedication.

The Meaning Behind the Name

What is "Meed"?

An Old English term meaning "a deserved reward or just recompense"—especially one earned through virtue, effort, or excellence.

This ancient word captures the essence of our educational philosophy: success achieved through disciplined striving and wholehearted dedication.

Mastery

Excellence in both spiritual and worldly domains

Enlightenment

Clarity through revealed and acquired knowledge

Empowerment

21st-century skills for lifelong success

Dedication

Discipline, Ibadah, and sustained focus

Our Vision & Mission

Vision

"To nurture future leaders of excellence—masters in both Dunya and Akhirah—through Enlightenment, Empowerment and Dedication."

01

Enlighten

Students gain both revealed (Islamic) and acquired (worldly) knowledge that builds clarity, identity, and purpose.

02

Empower

Equip learners with 21st-century skills, rituals of mastery, and cognitive tools to excel in an age of noise, speed, and distraction.

03

Dedicate

Ground hearts in discipline, Ibadah, and sustained focus—anchored in sincerity (Ikhlas), objectivity, and resilience.

04

Master

Achieve excellence in both spiritual and worldly domains through intentional education, personalised growth, and character formation.

Five Guiding Principles

Our core principles anchor daily practice and school culture, creating a foundation for whole-person formation and "experts with integrity."

Vision

Clarity of purpose guides every decision and action throughout our community.

Sincerity & Justice

Ikhlas (sincerity) and objectivity form the ethical backbone of our approach.

Depth

We pursue profound understanding rather than superficial coverage of content.

Ritual

Consistent, meaningful practices build character and sustainable excellence.

Perseverance

Resilience and sustained effort transform potential into achievement.

A Full-Day Ecosystem of Growth

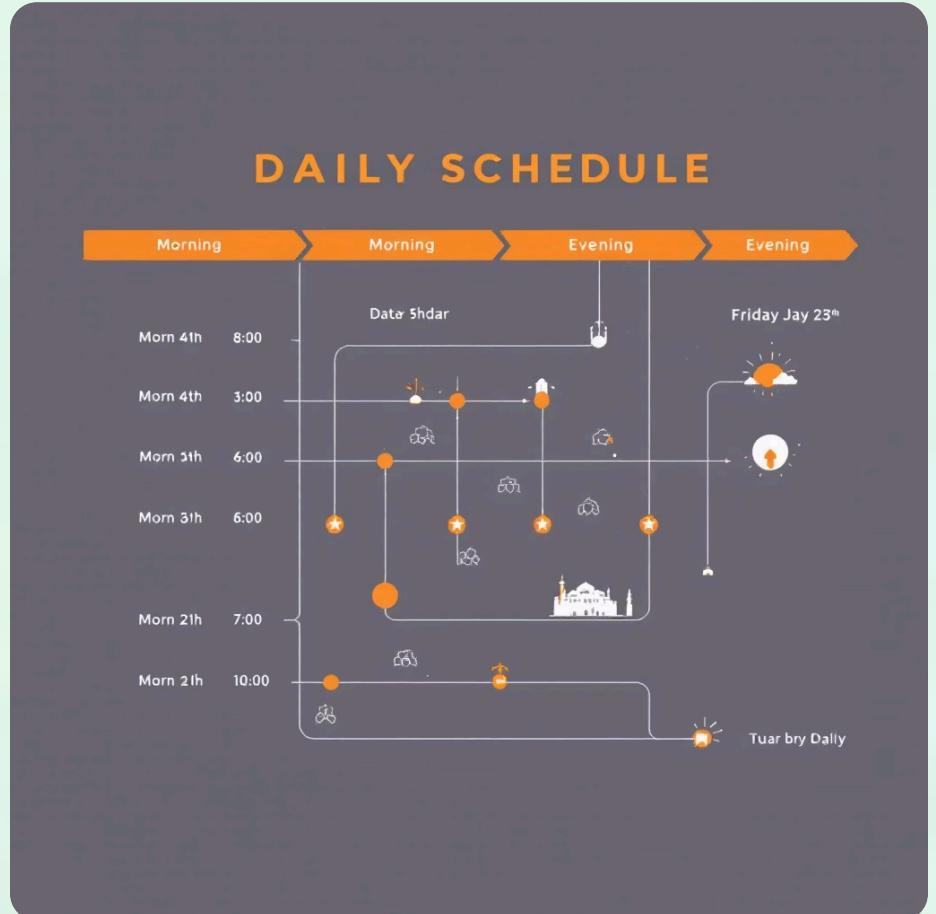

Beyond Traditional Schooling

MEED is not a morning-only or half-day programme. We provide a complete educational ecosystem structured by **MEED Rituals**

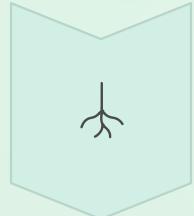

Imaging (MRI).

- Days open with intention and close with reflection
- Academic programmes (AMRI) integrate seamlessly with non-academic rhythms (NMRI)
- Together, they create a coherent ecology for holistic growth

This comprehensive approach ensures students develop spiritually, intellectually, emotionally, and physically throughout each day.

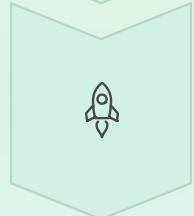

Execution First: Our Operating Formula

Rooting

Dream and establish research-based methodologies to achieve

Initiating

Prepare, deliver, and communicate required materials to all stakeholders

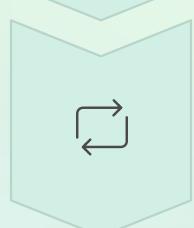

Acting × 3

Immerse in execution—consistent action over talk

Tracking

Log evidence through AUP/APD notes and PT files

Repeating

Iterate daily, weekly, monthly—continuous improvement

- ❑ **The Sheer Importance of Execution:** Notice the triple emphasis on "Acting"—this reflects our commitment to implementation over theory. We believe in doing, measuring, and refining through consistent practice.

Holistic Evaluation Framework

What Gets Assessed Gets Attention

MEED blends continuous (formative) and periodic (summative) evaluation across both scholastic and co-scholastic growth—aligned with global best practice from CCE, IB, and Finnish models.

Scholastic Assessment

- Subject mastery across all disciplines
- Regular chapter tests (TCS Cycle)
- Mid Term & term End Examinations
- Portfolio documentation (CCD & CDD)

Co-Scholastic Assessment

- Character development
- Habits and rituals
- Social and emotional growth
- Spiritual formation

Our approach ensures that character formation and spiritual development receive the same rigorous attention as academic achievement.

Elementary Programme Structure

Classes I-VII Weekly Allocation

Core Languages

- English: 4 periods (Language + Literature) + 1 test
- Hindi: 4 periods (Grammar + Literature)
- Urdu/Arabic: 3 periods

STEM & Humanities

- Mathematics: 5 periods (includes 1 test)
- Science: 3–4 periods (age-appropriate)
- Social Studies: 3–4 periods
- Computer: 1 theory + 1 practical

Character & Skills

- QT (Quranic Teaching): 1 period
- GK (General Knowledge): 1 period
- BL-PE (Preliminary English): 3–5 sessions/week
- SUPW: 1 period
- FRE (Friday Regular Event): Weekly
- Morning Assembly and Occasional Events

TCS Cycle: Test → Correction → Submission. After every chapter, students are tested, receive feedback, and work is submitted to the PT file—ensuring continuous learning.

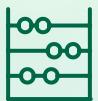

Pre-Primary Excellence

Nursery, LKG & UKG

English Foundation

ABC Express for capital and small letters, plus rhymes and picture albums to build language love.

Mathematical Thinking

Number work, Maths Power exercises, and artistic activities develop early numeracy.

Hindi & Urdu

Akshar Adhar, Lekhan, Shagufta Urdu, and BalGeet introduce multiple scripts organically.

The Mother-Guide Model

Active teaching is led by the Mother Teacher (M), whilst a shared Guide (G) rotates amongst all three Pre-Primary classes, supporting passive tasks: copy checking, worksheet collection, portfolio filing, and simple assessments. This ensures every child receives focused instruction whilst assessment remains continuous and thorough.

Join the MEED Journey

Where Excellence Meets Integrity

MEED Public School invites parents, educators, and stakeholders to be part of an educational movement that refuses to choose between worldly success and spiritual depth.

We are building a generation of leaders who excel in both Dunya and Akhirah—equipped with mastery, guided by enlightenment, strengthened through empowerment, and grounded in dedication.

Academic Excellence

Rigorous, research-based curricula

Spiritual Formation

Daily rituals and character building

Global Readiness

21st-century skills for tomorrow's challenges

"A deserved reward earned through virtue, effort, and excellence."
